

November 12, 2012

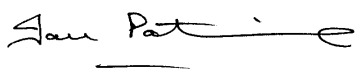

Dear Sir/Madam,

To date, JANA's primary use of the eInvestment database and system has been to support and enhance our research of both managers and investment strategies outside of Australia. We have built upon the relationship with eInvestment by expanding our use of the platform to also supplement our Australian investment research and due diligence. As is the case with non-Australian data, eInvestment serves as an important source of factual, quantitative and qualitative data to support our manager research, search and selection exercises, and ongoing monitoring purposes.

We recognise that you currently receive periodic data requests from JANA consultants and researchers. It is our goal to minimise those as our reliance upon eInvestment increases. As such, we need your support and participation on eInvestment to help us jump start that process. If your data is not updated on eInvestment, it then forces us to contact you directly for duplicative data. Let's work together to avoid this less efficient process. *Please note: eInvestment does not charge a fee to submit data.*

We thank you for your time and effort and look forward to monitoring your firm and products increasingly via eInvestment going forward. Please feel free to contact us with any questions or reach out directly to eInvestment by contacting: James Metcalfe, T: (02) 8211 2717, Client Service, E: [australia@einvestment.com](mailto:australia@einvestment.com).

Respectfully,

Ian Patrick  
Chief Executive Officer  
JANA Investment Advisers
