Intensive manager research is central to what you do. Ensure that your research — from documents and notes to commentary and reviews -- are centralized and secure with eVestment Research Management.

### Scale your research with RESEARCH MANAGEMENT

Centralize your firm’s manager research assets

- Findability sounds like a tech term, but it’s actually a problem many research teams face everyday. They know they have deep research on a strategy or manager, but it’s just not findable. It’s hidden on a chaotic shared drive or dispersed across analysts.

Bring efficiency to your research process

- Your research team has a well defined due-diligence process for screening managers, but you’re still relying on emails to remind people of review deadlines or pending approvals. Automated workflow frees you to do what you do best — research, analyze and think — and lets technology take care of reminders to Kevin.

Educate clients and stakeholders

- Increasingly, boards, families and other investor stakeholders want to more fully understand the process behind how particular managers have been chosen. With a purpose-built platform for manager research, it’s easy to show your due-diligence process, step by step.
