

Global Database Overview

With over 46,000 traditional long-only vehicles and over 28,000 alternative strategies, the breadth and depth of institutional coverage of the eVestment Database is unmatched. The eVestment database has been named the "Most Influential Database" by *FundFire* and was ranked as the No. 1 "Must Be In" database in the *Money Management Intelligence and iiSearches Consultant Relations Survey*.

Our database questionnaire was developed in conjunction with leading consultants to ensure relevance well beyond performance. We also employ a worldwide in-house team of data collection experts who actively pursue new managers and maintain data points for existing managers. The team's sole focus is the collection and quality assurance of all data gathered from institutional asset managers.
