
REDINGTON PARTNERS WITH EVESTMENT TO ENHANCE MANAGER RESEARCH

London, 19 June 2012: Redington is pleased to announce an exciting new landmark: the creation of a partnership to further enhance its manager research.

The new partner, eVestment Alliance, is unparalleled in its provision of data intelligence and analytics in fund management. Redington will use the eVestment Global Database, which is the most comprehensive dataset in the industry, to offer truly world class manager research to its clients. The database covers 43,000 strategies across traditional and hedge fund providers.

Since its inception in 2006, Redington has continually improved and enhanced its service offering, and its manager research team has built a formidable reputation. This partnership continues the company's drive for excellence and unrivalled service for its clients.

Pete Drewienkiewicz, Redington's head of manager research, said:

"We look forward to working closely with eVestment Alliance to deliver the most targeted and insightful manager research advice in the industry. The team remains focused on creating bespoke solutions that align the interests of our clients and fund managers."

Heath Wilson, founder and spokesman for eVestment Alliance, said:

"We are excited to be working with Redington and a team renowned for their innovative approach to the pension fund industry in the UK and Continental Europe. We look forward to supporting their research activities as they expand and grow over the coming years."

About Redington

Redington is an award-winning, independent Investment Consultancy providing strategic advice and asset and liability management expertise to UK and European pension schemes and insurance companies. The company employs 47 people and has over £220bn in assets under consulting with a client base including many of the UK's largest DB pension schemes.

Redington is the market leader in "fusion consulting", combining capital markets and investment banking experience with traditional actuarial analysis and consulting - effectively harnessing the technology of investment banks and asset managers to provide clients with a wide range of solutions. The Company was founded in 2006 by two ex-investment bankers, Dawid Konotey-Ahulu and Robert Gardner, formerly of Merrill Lynch where they spent many years advising on risk management strategies for their clients and, in 2003, devised and implemented the first full LDI risk management transaction by a pension fund, Friends Provident Pension Scheme.

Redington is a huge advocate of social media and web 3.0 and how it can be used to bring about innovation and collaboration in the pensions community. In December 2009 it launched and spun off mallowstreet.com, a targeted community that brings pension fund decision makers and product providers together in a unique way, both on-line and in-person.
